Joint Health and Wellbeing Strategy 2018 – 2022

"A single sustainable health & wellbeing system"

Our Strategic Framework

Health and Wellbeing Board
Norfolk & Waveney

Our Vision

A Single Sustainable System

Working together we will use our resources in the most effective way to prioritise prevention and support the most vulnerable

Our Priorities

Prioritising Prevention

Supporting people to be healthy, independent and resilient

Tackling Inequalities in Communities

Providing most support for those who are most in need

Integrating Ways of Working

Collaborating in the delivery of people centred care

Our Values

- Collectively Accountable
- Simplifying Systems
- Promoting Engagement and Involvement
- Evidence Based

Bringing partners' existing strategies together

Working together to achieve joint outcomes

Our Priorities

Health and Wellbeing Board
Norfolk & Waveney

Our vision of a single sustainable system requires us to work together, implementing what the evidence is telling us about health and wellbeing in Norfolk and Waveney, on these key priorities:

Priorities	By this we mean
1. A single sustainable system	Health and Wellbeing Board partners taking joint strategic oversight of the health, wellbeing and care system - leading the change and creating the conditions for integration and a single sustainable system.
2. Prioritising Prevention	A shared commitment to supporting people to be healthy, independent and resilient throughout life. Offering our help early to prevent and reduce demand for specialist services.
3. Tackling Inequalities in Communities	Providing support for those who are most vulnerable in localities using resources and assets in localities to address wider factors that impact on health and wellbeing.
4. Integrated ways of working	Collaborating in the delivery of people centred care to make sure services are joined up, consistent and makes sense to those who use them.

Our Values

Health and Wellbeing Board
Norfolk & Waveney

Our values describe our shared commitment to working together to make improvements and address the challenges:

Values	By this we mean:
Collectively Accountable	As system leaders, taking collective responsibility for the whole system rather than as individual organisations.
Simpler system	Reducing duplication and inefficiency, with fewer organisations - a commitment to joint commissioning and simpler contracting and payment mechanisms.
Engagement	Listening to the public and being transparent about our strategies across all organisations.
Based on evidence of needs	Using data, including the Joint Strategic Needs Assessment (JSNA), to target our work where it can make the most difference - making evidence-based decisions to improve health and wellbeing outcomes.
Bringing partners' existing strategies together	Under the umbrella of the Health and Wellbeing Board for Norfolk and Waveney - identifying the added value that collaboration brings and working together to achieve joint outcomes.

Our Strategy

Health and Wellbeing Board
Norfolk & Waveney

- Key messages are outlined in the welcome from the Health and Wellbeing Board's Chairman and Chief Officer – Cllr Bill Borrett and Dr Louise Smith
- Acknowledges the context we are all working in
- Steers how we all work together as system leaders to drive forward transformation and improvement
- Emphasises the connection to the Norfolk and Waveney Sustainability & Transformation Partnership
- Brings partners' existing plans and strategies together

Norfolk & Waveney

Our Strategy: How the document works…

- Evidence of need and key statistics
- What's important strategically?
- Key Challenges
- Priority **Actions**
- Key **Measures**
- Case Studies to illustrate

Health and Wellbeing Board
Norfolk & Waveney

Our Strategy: What's next?

- The Joint Health and Wellbeing Strategy 2018-22 has been agreed by the Health and Wellbeing Board

- All partner organisations are currently signing up to the joint Strategy between now and the end of October 2018

- Now as we move into implementation - all partners have agreed to commit to take an active role

Our Strategy: Towards implementation

Health and Wellbeing Board
Norfolk & Waveney

This means we are going to:

- Identify the actions that we will each take
- Develop an implementation plan
- Develop an outcomes framework
- Bring reports regularly to our HWB meetings
- Carry out in-depth reviews
- Hold ourselves to account
- Keep our Strategy active

Health and Wellbeing Board
Norfolk & Waveney

Our Strategy

- Discussion and decision
- Confirming our agreement
