# INFORMATION GOVERNANCE STRATEGY

## 1 INTRODUCTION

- 1.1 The Information Governance Strategy cannot be seen in isolation as information plays a key part in corporate governance, clinical governance, risk management, service planning, informatics, performance and business management. The strategy is, therefore, closely linked with other strategies to ensure integration with all aspects of the Trust's business activities.
- 1.2 IG should be viewed in the overall context of Governance within the Trust as a vital component of both planning and healthcare. IG is a component of performance management, i.e. ensuring that IG is central to the working lives of all staff will be a part of each manager's personal objectives.
- 1.3 The two key components underpinning this strategy are:
- The Trust's IG Policy, which outlines the objectives for information governance; and
  - An annual IG Action Plan arising from a base line assessment against the standards and controls set out in the NHS Connecting for Health Information Governance Toolkit
- 1.4 The over-riding critical success factor for effective IG will be to develop and maintain a culture of good management of data & information, information systems, information security, information quality assurance, data protection and records management. This will be achieved primarily by an effective programme of IG awareness, training and education.

## 2 PURPOSE

- 2.1 The purpose of this strategy is to set out the approach to be taken within the Trust to provide a robust Information Governance framework for the current and future management of information to ensure compliance with all appropriate legislation, standards and best practice.
- 2.1.1 The Trust aims to achieve a standard of excellence in information governance by ensuring information is dealt with legally, securely, efficiently and effectively in the course of Trust business, in order to support high quality patient care.
- 2.1.2 All information processing will be undertaken in accordance with relevant legislation and best practice. The Trust will set policies and procedures to ensure that appropriate standards are defined, implemented and maintained.

The Trust aims to minimise the risks arising from information handling processes, these are:

- Legal action due to non-compliance with statutory and regulatory requirements;
- Loss of public confidence in the Trust; and
- Contribution to clinical or corporate negligence.

The Trust also aims to provide support to its staff to be consistent in the way they handle personal information and to avoid duplication of effort. This will lead to improvements in:

- Information handling activities;
- Patient confidence in the NHS and the Trust; and
- Staff training and development.

### **3 DEFINITIONS**

#### **3.1 Breach of Confidentiality**

A breach of confidentiality is the unauthorized disclosure of personal information provided in confidence.

#### **3.2 Confidential Information**

Confidential information can be anything that relates to patients, staff or any other information (such as contracts, tenders etc) held in any form (such as paper or other forms like electronic, microfilm, audio or video) howsoever stored (such as patient records, paper diaries, computer or on portable devices such as laptops, PDAs, BlackBerrys, mobile telephones) or even passed by word of mouth. Person identifiable information is anything that contains the means to identify an individual.

#### **3.3 Disclosure**

This is the divulging or provision of access to data.

#### **3.4 Information Governance**

Information Governance is defined as the way the NHS handles information about patients, clients and employees, in particular personal and sensitive information.

#### **3.5 Patient identifiable Information**

Key identifiable information includes:

- Patient's name, address, full post code, date of birth;
- Pictures, photographs, videos, audio-tapes or other images of patients;
- NHS number and local patient identifiable codes;
- Anything else that may be used to identify a patient directly or indirectly. For example, rare diseases, drug treatments or statistical analyses which have very small numbers within a small population may allow individuals to be identified.

#### **3.6 Sensitive Data**

Data held about an individual which contains both personal and sensitive information. There are only seven types of information detailed in the Data Protection Act 1998 that are deemed as sensitive:

- Racial or ethnic origin;
- Religious or other beliefs;
- Political opinions;
- Trade union membership;

- Physical or mental health;
- Sexual life; and
- Criminal proceedings or convictions.

## 4 RESPONSIBILITIES

### 4.1 Chief Executive

The Chief Executive is the accounting officer responsible for the management of the Trust and for ensuring appropriate mechanisms are in place to support service delivery and continuity. Maintaining confidentiality is pivotal to the Trust being able to supply a first class confidential service that provides the highest quality patient care. The Trust has a particular responsibility for ensuring that it corporately meets its legal responsibilities, and for the adoption of internal and external governance requirements.

### 4.2 Senior Information Risk Owner (SIRO)

The Trust has appointed the Director of Planning & Performance as Senior Information Risk Owner (SIRO). The SIRO will act as an advocate for information risk on the Board and in internal discussions will provide written advice to the Accountable Officer on the content of their annual Statement of Internal Control in regard to information risk.

### 4.3 Caldicott Guardian

The Trust's Caldicott Guardian has a particular responsibility for reflecting patients' interests regarding the use of patient identifiable information. The Caldicott Guardian is responsible for ensuring patient identifiable information is shared in an appropriate and secure manner.

### 4.4 Information Governance Committee

The Information Governance Committee is responsible for ensuring that this policy is implemented, including any supporting guidance and training deemed necessary to support the implementation, and for monitoring and providing Board assurance in this respect.

### 4.5 Information Governance & RA Manager

The Information Governance & RA Manager is responsible for advising on strategic direction, the development of policy and guidance for the Trust, and also operational support to the Trust.

### 4.6 Trust Managers

It is the responsibility of Executive Directors, Divisional Managers, Heads of Departments, Divisional Chief Nurses, Matrons and ward sisters/charge nurses to ensure the implementation of policies throughout their areas of responsibility. Managers should also react in an appropriate manner when informed of instances where behaviour is not in accordance with the policy that is set out herein.

### 4.7 All Staff

All employees and anyone working on behalf of the Trust, involved in the receipt, handling or communication of person identifiable information, must adhere to this policy to support the reputation of the Trust and where relevant of their profession. Everyone has a duty to respect a data subjects

rights to confidentiality.

## 5 INFORMATION GOVERNANCE STRATEGY

5.1 ***The Trust will establish a robust information governance process conforming to the Health & Social care Information Centre standards and the objectives in the Trust's Information Governance Policy. It is the responsibility of all organisations to comply with relevant legislation.***

5.1.1 The Department of Health has developed the following five broad standards to ensure that information is:

- Held securely and confidentially;
- Obtained fairly and efficiently;
- Recorded accurately and reliably;
- Used effectively and ethically; and
- Shared appropriately and lawfully.

5.2 ***All staff must understand and apply best practice and the principles of information governance to manage all information to support the business activities of the Trust.***

5.2.1 The Trust will ensure:

- All staff involved in the administration of information governance receive Senior Management backing, training and encouragement to be aware of developments in information governance and any relevant information handling issues that will affect them;
- Delivery of mandated information governance induction and update training for all staff;
- Regular communications to staff using broadcast emails, intranet, staff briefings and IG Newsletters; and
- Confidentiality clauses within all staff contracts.

5.3 ***The Trust will undertake regular reviews and audits of how information is processed.***

5.3.1 This is to be achieved through:

- Mapping of data flows;
- Reviews of reported information incidents;
- Confidentiality audits;
- Record audits.

5.4 ***The Trust will develop and maintain a robust management and responsibility reporting structure to ensure that information governance and associated risks are appropriately managed to support the overall risk management function within the Trust.***

- 5.4.1 This is to be achieved through:
- Regular Information Governance Committee meetings;
  - Appointment of key roles and responsibilities eg SIRO, Caldicott Guardian etc;
  - Informing staff of the key personnel and their responsibility;
  - Provision of clear advice and guidance networks throughout the Trust;
  - Implementation of defined information incident reporting and investigating procedures linked to the risk management process; and
  - Information Governance policies and procedures will be developed, regularly reviewed and maintained to reflect current standards.

5.5 ***Identifying where there are common areas of work will help all employees to work in a cohesive fashion towards a common goal, to the benefit of the patient.***

5.5.1 This is to be achieved through encouraging multi-disciplinary teams to work more closely together to reduce repetitive practices by seamlessly sharing relevant information and standardising practices and procedures

5.6 ***The Trust will involve patients and staff in the development of information that is used to improve services.***

5.6.1 This is to be achieved through involving patients and staff in surveys, forums and groups in order to seek the opinions of the service users and where appropriate to act on those views.

5.7 ***The Trust will ensure that clear advice and guidance are made available through information leaflets and awareness posters to patients, families and carers about how their personal information is used.***

- 5.7.1 This is to be achieved through:
- Making information available in various formats explaining how information is recorded and shared and how any concerns may be raised. Information will also be provided on Subject Access Requests under the Data Protection Act 1998; and
  - Patients will be made aware of the importance of providing accurate and up to date information about themselves so that appropriate care is given to the correct patient and to manage the resources adequately.

## **6 TRAINING**

6.1 Support to implement this strategy will be provided by mandatory annual IG Training delivered by the IG Team, IG Workbooks and the online IG Training Tool.

## 8 EQUALITY IMPACT ASSESSMENT

- 8.1 A Stage 1 (Screening) - Equality Impact Assessment has been undertaken and no negative impact on any group was indicated (see Appendix 1).

## 9 DISSEMINATION

- 9.1 This policy will be uploaded onto the intranet and all appropriate staff will be informed by broadcast email and the IG & RA Newsletter.

## 10 ARRANGEMENTS FOR MONITORING COMPLIANCE WITH THIS POLICY

- 10.1 Compliance with this policy will be monitored in the following manner (see table below):

Key elements (Minimum Requirements)	Process for Monitoring (e.g. audit)	By Whom (Individual / group /committee)	Frequency of monitoring
Roles and responsibilities	Monitored at appraisal, following review of the individual's knowledge & skills framework (KSF)	Line manager	Annually

	together with the job description.		
How the organisation provides IG Training. In house training sessions are delivered regularly throughout the year to meet the needs of the Trust	Electronic Staff Record (ESR) is utilised to identify all staff who are non-compliant	IG Team	Monthly
Reducing the number of Information Governance breaches	Management of incidents relating to Information Governance	IG Team	Monthly
Ensuring best practice across the Trust	Undertaking Confidentiality Audits	IG Team	Monthly

## APPENDIX 1

### EQUALITY IMPACT ASSESSMENT

To be completed and attached to any policy document when submitted to the appropriate committee for ratification

#### STAGE 1 - SCREENING

<b>Name &amp; Job Title of Assessor: Phil Cottis, Information Governance &amp; RA Manager</b>		<b>Date of Initial Screening: 04.01.10</b>	
<b>Policy or Function to be assessed: Information Governance Strategy</b>			
		<b>Yes/No</b>	<b>Comments</b>
<b>1.</b>	<b>Does the policy, function, service or project affect one group more or less favourably than another on the basis of:</b>
